Members & Retail Customers

There are two types of customers in MintBuilder: Members & Retail Customers.

Retail Customers are purchasing all of our wealth driven assets at standard industry retail pricing. Members earn an Instant Retail Customer Commission from every Retail priced purchase made within their 5 tier team.

Members are purchasing all of our wealth driven assets at true Wholesale prices allowing you to amass great wealth at the best pricing in the industry. To become a Wholesale Customer you must purchase the Member Platform or a Bundled Subscription which includes the member Platform. Members earn an Instant Monthly Recurring Commission from every Subscription purchase made within their 5 tier team.

Payout Schedule: Retail Customer Commissions and Recurring Commissions are instantly credited to your Member Account. These commissions can be used right away to purchase products from the shop, used to fully or partially cover your monthly subscription or the commissions can be paid out via one of our payout options. If you choose a payout option we payout every Monday. Do you want FREE Silver and Gold or do you want Cash? The option is yours!

Personal Commissions

PAID INSTANTLY

MintBuilder Personal Commissions are the simplest yet highest paid personal referral commissions in our niche of the industry. There are no points, no flushing, no team balancing and no rank advancements needed to have full access to the all of your Personal Commissions earned. Your income is truly unlimited. All sales referred by you are in your 1st tier frontline to you.

1

10% Retail Commission is earned when you refer a Retail Customer to your shop and they make a purchase. Does not include purchases made within the Bullion category or purchases made by a Member who is on a subscription containing the Member Platform.

2

1% Retail Bullion Commission is earned when you refer a Retail Customer to your shop and they make a purchase within the Bullion category.

3

10% Recurring Commission is earned when you refer a Customer to your shop and they purchase a subscription. These commissions are paid month over month meaning one referral will pay you over and over again. Recurring commissions are great!

Team Matching

PAID INSTANTLY

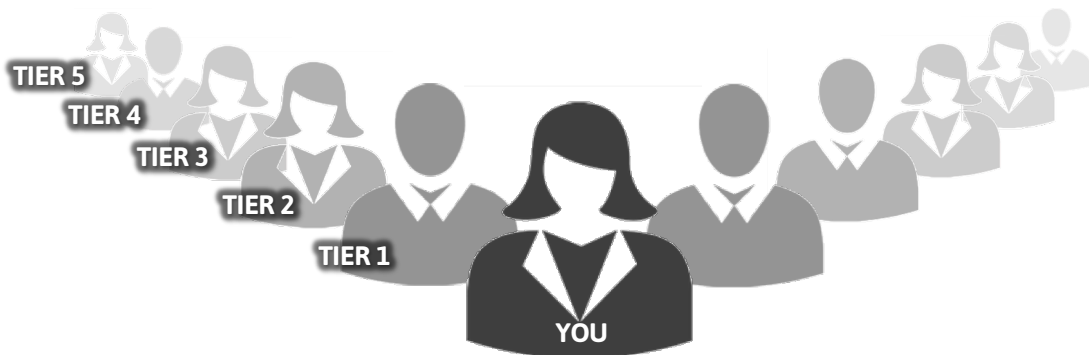

MintBuilder Team Matching makes building a team very lucrative. You earn income whenever a Retail Customer sale or Subscription purchase is made on your tiers 2-5. Your team members earn the 10% (or earn 1% on Retail customer sales) Personal Commissions and we pay you a massive 50% commission Match on every 10% or 1% earned from your team.

4

50% Retail Match is paid to you every time any team member within your 5 tier team earns 10% or 1% commissions from Retail Customer purchases.

5

50% Recurring Match is paid to you every time any team member within your 5 tier team earns 10% commissions from Subscription purchases. These commissions are paid month over month meaning one referral will pay you over and over again.

Income Goal

Focus on referring the sale of one SELECT FEW BUNDLE per week. Why the SELECT FEW BUNDLE? This bundle has the potential to increase wealth faster with rare coins (it's like putting away \$6 a day in TRUE WEALTH SAVINGS) and it will also increase your income super quick.

Let's say that you and your team do not reach your goal of referring the sale of one SELECT FEW BUNDLE per week. Instead, you and your team each only refer one sale every 3 months (that's only 4 sales a year each). Once your 5 tier team has accomplished these 4 sales each your income will be \$12,000 EVERY MONTH, that's more than \$145,000 a year! Even if this scenario only has a 50% success rate your income would still be \$70,000 a year. This income is being earned by simply helping people increase their wealth with a True Asset Savings and Income Platform. Can you start to envision the true income potential with your simple yet super powerful platform?

Terms & Definitions

Attrition Rate: This is the rate at which Wholesale Customers on a subscription cancel. In the direct selling industry it is typically over 50% annually, however at MintBuilder our rate is less than half the industry standard. We believe this is attributed to two main things; the best product pricing available and a simple yet powerful compensation plan.

Income Platform: MintBuilder has the standard back office where you can see your orders, maintain your payments etc. We also have proprietary backend software where you can see your team, commissions, training, marketing tools, marketing funnel, allocate commissions etc. This is called the Income Platform. It is available to every Member.

Leveraged Income: In the normal income model where you work hours to get paid dollars you have no leverage other than trading hours for a wage. You can only earn based on your perceived worth whether that be hourly or salary. With MintBuilder you are not only paid on your efforts, but you also earn streams of income which are leveraged from the efforts of your 5 tier team.

Personally Referred: Anyone you refer who makes a purchase is considered Personally Referred and is always frontline to you which is also called your 1st Tier.

Retail Customer: Anyone who purchases from a member's shop at industry standard retail pricing. This would be a customer who is not on a subscription with the Member Platform and does not receive Wholesale pricing.

Team Referred: A sale made in a retail shop or subscription purchase that was generated on Tier 2, 3, 4 or 5. This sale would come from a Team member and not from you. Your sales will always be on Tier 1.

Tiers: When you refer a Membership sale they go directly on your frontline which is called Tier 1. When your personally referred member sells a membership that new member goes to their frontline and will be on your Tier 2. When that Tier 2 member makes a personal membership sale that new member will be on your Tier 3 and so on. Your pay-line extends to your 5th Tier below you.

Wholesale Customer: Anyone who purchases a Member Platform or Subscription Bundle which includes the member Platform. This person has access to the best pricing on precious metals as well as access to our optional proprietary Income Platform.

Income Disclosure

The MintBuilder Compensation Plan is an exciting opportunity that rewards you for selling products and wholesale memberships. Although the opportunity to earn with MintBuilder is extraordinary, individual results will vary depending on commitment levels and sales skills of each participant. Success in MintBuilder has nothing to do with the market value of precious metals. Since MintBuilder has recently launched, it lacks enough statistical data to prepare reliable income disclosures. The numbers below reflect estimates prepared by the company pending a more detailed survey. Based on industry standards and company projections, the average annual gross income for Independent Representatives is projected to be anywhere between \$500 and \$2,000. There will certainly be participants who will earn less while others will earn much more. We're excited about the Compensation Plan and we're confident it will provide you a solid foundation to help you achieve your financial goals. If income projections were presented to you prior to your enrollment, such projections are not necessarily representative of the income, if any, that you can or will earn through your participation in the Compensation Plan. These income projections should not be considered as guarantees or projections of your actual earnings or profits. Success results only from hard work, dedication, and leadership.
