Wholesale Customers & Retail Customers

There are two types of customers in MintBuilder: Wholesale Customers & Retail Customers.

Retail Customers are purchasing all of our wealth driven assets at standard industry retail pricing. Wholesale Customers earn an Instant Retail Customer Commission from every RETAIL priced sale made within their 5 tier team.

Wholesale Customers are purchasing all of our wealth driven assets at true Wholesale prices which are at or near company cost allowing you to amass assets at the best pricing in the industry. To become a Wholesale Customer you must purchase the Wholesale Customer Membership or a Membership Bundle which includes the Wholesale Customer Membership. Wholesale Customers earn an Instant Monthly Recurring Commission from every Wholesale Customer Membership sale made within their 5 tier team.

Payout Schedule: Retail Customer Commissions and Recurring Commissions are instantly credited to your Wholesale Customer Account. These commissions can be used right away to purchase products from the shop, used to fully or partially cover your monthly Membership or the commissions can be deposited directly into your bank account. Direct deposits payout every Monday. If you earn commissions do you want FREE Silver and Gold or do you want Cash? The option is yours!

Personal Commissions

PAID INSTANTLY

MintBuilder Personal Sales Commissions are easy to understand. There are no points, no flushing, no team balancing and no rank advancements needed to access your Personal Sales Commissions when earned. All sales made by you are in your 1st tier frontline to you.

Even then success is not guaranteed. Based on industry standards and company projections, the average annual gross income for a Customer who chooses to participate in selling commissionable products is projected to be anywhere between \$50 and \$2,000. There are participants who have earned \$0 while others have earned more than \$2,000. If income projections were presented to you prior to your enrollment, such projections are not necessarily representative of the income, if any, that you can or will earn through your participation in the Compensation Plan. These income projections should not be considered as guarantees or projections of your actual earnings or profits. Success results only from hard work, dedication, and leadership.
