

Your Opportunity To Build A Mint (Script)

S1. Welcome to the MintBuilder overview! You're in the right place at the right time and you probably want to know exactly what it is you have to gain by watching this. Well, I promise if you stay tuned until the end, you'll be presented with a plan that is absolutely life changing!

S2. Let's jump right in! The first thing to understand is our economy is in irreversible trouble, and to ask yourself, are you prepared? Here at MintBuilder your financial wellness is our mission. Our simple to follow program will help you Grow your wealth, Reduce anxiety and simply put... be able to Enjoy life more. I hope you're ready!

S3. Becoming wealthy, Achieving financial success, Living life on your own terms — these are all things that many of us want for ourselves when we think about our future. The reality is...

S4. ...many will never realize their dreams of becoming financially successful, but not because they can't. Anyone with the right actions can make it happen. People behave in ways that don't promote their financial success, often without even realizing it. They sabotage their financial futures, ensuring that they stay broke.

S5. Our mindsets often hold us back and if you eliminate just this one mindset, you're well on your way... the mindset I'm talking about is the belief that building wealth is "all about luck". The truth is, it doesn't just happen to some people and not to others. Building wealth is about correct Education, it's about Planning and it's about Consistency. Regardless of your current financial situation you are able to create your own success story. There are thousands of success stories of people who came from nothing and managed to achieve incredible financial success.

S6. If you want to have success building incredible wealth for yourself, you have to take the initial step of saving some of your income right now. And if you want to expedite the growth rate of your wealth savings than you will want to acquire silver or gold ASSETS as your savings instead of putting cash in the bank. We will talk more about that in a minute. For now, it is important to understand that too many people make the mistake of thinking that they just need to earn more money in order for them to build wealth. That way of thinking is what keeps people broke. When it comes to building wealth, it's all about getting the Education of what the top 1% do, Planning out your next steps and being CONSISTENT. We are not talking about a getting rich quick. We're talking about building true wealth with real old fashion tangible gold and silver. So, if your income is not as much as you'd like it to be, focus on acquiring what you can, and do it on a consistent basis so you can create a habit. Start by acquiring enough assets to have a small emergency fund in place and then work towards your bigger goals.

S7. So, why are we recommending precious metal assets instead of putting cash in a savings account? ALL paper currency, which most mistakenly call Money has one inevitable destination and that is ZERO. Let's take a look at the US Dollar. In the last 100 years it has already lost more than 96% of its ability to buy the things we need.

S8. Just think of your paper currency as the battery life on your phone... if your phone were at 4% with a thin red line showing on the battery icon there's a good chance you would be actively looking to plug your phone into a charger to prevent it from dying. Well that is exactly how much buying power remains in our currency to buy the things we need today, and it's only getting worse. So, if you want to charge up

your wealth then you need to plug it into a charger... a true asset with real value. Silver and gold have been used as a wealth charger by the ultra-wealthy for hundreds of years.

S9. What are the top 1% doing with their paper currency? The banks themselves are trading in their paper currency for Silver and Gold. For example, JP Morgan Chase owns 600 MILLION ounces of silver! You have to ask yourself one question... Why would the system that handles only digital and paper currency move into the precious metals and away from paper? It would be like the executives of Microsoft all using Mac computers in their office. Now that you know this information it should raise a red flag. Some will choose to go on oblivious, never knowing this is going on until it's too late. The banking elite know there is a major debt crisis and the world's paper currency is in irreversible trouble. They have already began purchasing silver and gold to protect themselves. Are you ready to start building your own Silver and Gold reserves? Let's first provide a little education on Silver and Gold...

S10. Silver and gold assets come in two distinct forms, Bullion and Numismatics. Both are true wealth assets providing you with different benefits.

S11. Bullion is your crisis protection. It could be for a world crisis such as your country's currency collapsing which by the way happens fairly often around the world. Or it could be for a crisis on a more personal scale. Maybe you lose your job, or some other emergency arises. Bullion has the lowest premiums allowing you to own more ounces for less. There are many real-life stories we've heard from our MintBuilder members such as being in between jobs sometimes for much longer than expected and they're livelihood was preserved by liquidating their bullion as needed to cover expenses. They were so thankful they had saved these assets when they did. When you look over just the last 12 years silver and gold have outperformed money in a savings account by 800%. So, bullion is crisis protection for your wealth kind of like auto insurance is for your car.

S12. Numismatics on the other hand create a way for you to rapidly grow your wealth. They are not as market dependent and most are sonically sealed and preserved. You might be thinking why would you spend so much more on one ounce of numismatic silver when you can just buy more bullion?

S13. Here is a \$45 numismatic coin that we recently sold out of. It is now selling for \$90. This didn't take 10 years to appreciate it happened in just a few months.

S14. How about a coin that cost \$150, does that sound like a lot of money for a coin? Well that coin a year later is now valued at \$800. What if you bought 10 or even 20 of them? We had some members who did. There's a secret to our member's almost instant wealth gain when they purchase these numismatic assets. The secret is getting them at the right PRICE to ensure their purchases lead to these successful wealth gains. And this is what MintBuilder is all about... helping people just like you build their wealth as quickly as possible.

S15. There are two distinct people here at MintBuilder, The majority of the people at MintBuilder are Wholesale Customers. They purchase a wholesale membership. They purchase precious metals. They are NOT an affiliate. The second group of people here at MintBuilder are affiliates. They sell memberships. They sell precious metals. They also build a sales organization that does the same.

S16. There are two wholesale customer memberships to choose from; the \$39 Basic Membership and the \$79 Pro Membership. Here are the benefits of each... Both provide access to our exclusive Open Vault Marketplace where our members can sell, buy and trade precious metals among the entire

MintBuilder community. Both provide precious metals training and tools. Both offer an unheard of 100% shop buy back guarantee! We are the only company that allows you to buy from us and then sell the product back for 100% of the going member price! Both memberships give you Free full affiliate platform access. Both give you a Free one tenth ounce 99.9% pure silver round sent to you every month. The Basic membership gives you 10% off all Auto Asset pricing and the Pro membership allows you to save 12%. This savings really adds up! The Basic membership has an average savings of 17% when purchasing products from the shop and the Pro membership provides a 28% savings. This is an average including bullion pricing! The Pro membership includes a Free one goldback containing .001 ounce of pure gold in the form of a foil note every month. With the Pro membership you also earn Pro commission overrides which we will explain in a few minutes, but these can add up to be very significant. Also, the Pro membership provides you with discounts on travel and attractions. And you receive the Hurdler Premium Tax App which is a great tool to automatically keep track of your business expenses for you allowing you to potentially write off your monthly membership expense. Please seek the advice of your accountant on all tax related inquires. The total value of the Basic membership is well over \$70 a month and the Pro membership value far surpasses \$175 a month.

S17. With your MintBuilder wholesale membership you can setup an automated asset savings plan. We have several products to choose from such as fractional silver, platinum, gold and highly collectible coins. You have the ability to choose any quantity of each product. You have the ability to change or cancel your asset savings at any time with ease from your customer platform.

S18. At MintBuilder we don't stop with accumulating real assets we also understand that many people are seeking more income today. With the loss of purchasing power in our currency you are likely working much harder now to afford your living expenses. We have a solution... we've created a program that increases your income. This program is called the Affiliate Income Platform. It is totally optional but included for Free in your wholesale customer Membership for your convenience.

S19. With the Affiliate Income Platform, you are provided with many tools to help you succeed. These tools are; your own ecommerce website,

S20. and precious metals shop,

S21. software to track your sales and your team's sales,

S22. ongoing free maintenance,

S23. tons of training,

S24. marketing tools such as banners and page peels to name a couple,

S25. lead capture system with a free silver giveaway,

S26. prospect autoresponder emails,

S27. payment processing,

S28. product order fulfillment and logistics

S29. AND unlimited commissions to be earned.

S30. I want to illustrate an example of the different commissions working together to show you the potential income our Affiliates can earn. The following example is based on you selling five Pro memberships and your five tier team doing the same. It is also based on each sale purchasing the average of all the automated assets which is about One hundred dollars. It is important to note that a perfect scenario of five by five is nearly impossible. Many customers will not promote the customer memberships at all, while others could sell many more than one hundred. This is just an example to illustrate how the commissions and bonuses can be earned. When you refer five on the package previously mentioned you will earn around fifty dollars a month.

S31. When you help five affiliates each sell five of these packages your new monthly income is over two hundred dollars a month.

S32. When you help your third tier sales organization duplicate what you have done you will be earning over one thousand dollars a month.

S33. When you assist your fourth tier team to do the same your income increases to one thousand every week. In addition to this income you will receive two thousand dollars a month for twelve months from your Lifestyle bonus.

S34. When your fifth tier team completes the task of each selling five Pro memberships with automated assets, your income surpasses five thousand every week. And your lifestyle bonus increases to eight thousand dollars per month for twelve months. With MintBuilder your income has no limitation because you can build an unlimited amount of sales and with our exclusive Infinity Bonus the depth of your sales has no limit. Please see our Affiliate Income Plan for more details.

S35. Your subscription has an even deeper impact. We have partnered with Feed My Starving Children and the reason is simple... They have the biggest positive impact on the largest amount of people for the lowest expense. Here at MintBuilder not only are you building your legacy with precious metal assets, you are also helping to feed starving children all over the globe allowing them to create a legacy of their own. FMSC has always maintained the highest nonprofit rating as well as maintained the highest percentage, an unheard of 91% of all money donated is used directly for food. Every month you are on a subscription you are feeding hungry children in over 100 countries around the globe! The more subscriptions you refer the more meals that are being sent out all because of your efforts!

S36. Are you ready to take advantage of this knowledge right now? Are you ready to start expanding your wealth and the wealth of the ones you care most about? If you haven't started because you're afraid to fail, it's time to understand if you never try, you've already failed. It's important to take things one step at a time. Start by taking an assessment of where your finances currently stand and then decide which assets you want on auto-pilot without delay. Don't let the fear of failure keep you stuck. Only after taking action can you stop the cycle of living paycheck to paycheck. If you are like most, you're tired of being broke.

S37. It's time to start working on your financial wellbeing and building wealth instead. Let us welcome you to the MintBuilder family where your wealth is limitless!
